COMOR-D-25/56

18 November 1963

NRO review(s) completed.

MEMORANDUM FOR: Committee on Overhead Reconnaissance

SUBJECT: Long-Range Reconnaissance Program
for the Far East

1. Attached is a table which in its first four columns summarizes the COMOR requirements for, and the performance of, photographic missions flown against the Far East since May 1963. The last two columns contain Working Group recommendations and the NRO forecast of next missions. It is to be noted that the Working Group recommendations differ from COMOR-D-25/36 in the frequency recommended for coverage of three specific targets in North China and for coverage in the Sino-Indian border area. The Working Group recommendations also differ from the NRO forecast of next missions in North China. The accompanying map shows the geographic areas that are specified in the table.

2. The COMOR is requested, at its meeting of 21 November, to be prepared to advise whether they concur with the recommendation of the Working Group as presented in the second to the last column of Attachment 1.
